# About Aber SU Celebrates

AberSU Celebrates is our chance each year to recognise the hard work and achievements of students and staff across Aberystwyth University.

Aber SU Celebrates unofficially started 10 years ago with the Aber SU Teaching Awards and since then we have added the sports and societies awards. 4 years ago, we officially branded all three of these awards 'AberSU Celebrates' and are now known as a week of celebrating the achievements of staff and students over the last academic year.

The awards are run by nominations which take place in the first half of March each year. A panel of judges meet to make their way through every nomination to determine the winner for each category. AberSU Celebrates then takes place in May across three award evenings, where the winners of each category will be announced.

## About each award evening:

**Societies Awards:** Recognises the contribution of societies and individual students in enhancing the Aber University experience.

**Staff and Student Awards:** Supports best practice by highlighting teaching excellence and recognising the contributions of staff and student experience.

**Sports Awards:** Recognises the dedication of students to their Sports Club and their contributions socially, competitively and professionally.
