

Nate Pidcock

1. Why did you run?

I saw a lot of my friends struggling with university life and I wanted to make a difference.

2. What is it you are doing now? What career path did you go down/currently in?

I am currently the Deputy head of maths in a school and in charge of enrichment. I know whatever I do next, I want it to be with young people.

3. What is your favourite memory of being an Officer?

I loved going around in the SU minibus with the SU CEO to give out winter packs to students who couldn't go home due to the Covid Lockdown. I was dressed as Santa and she was dressed as Misses Clause.

That or when we did 'Dunk an Officer' to raise money for the Old College.

4. What advice would you give to anyone running for the role?

Make sure you care about what you are running for – it can make the biggest difference in what you do in the year.
