Your confidence level: Proficient

## Next steps

- Try to make sure your use of digital tools and media does not exclude anyone. Consider whether some people are excluded or discriminated against through the way digital technologies are used
- You may be able to contribute to policies that support the wellbeing of people and the environment through positive use of digital technologies
- What concerns do you have about digital technology in your learning? How can you join with others to address these issues?

Digital creativity and problem solving

Using digital tools

Digital communication and collaboration

Finding information and resources

Being digital

Managing your digital learning

Digital preferences and needs

Comparing the results between two completions.
