

Ideas for The Big Meeting (AGM)
Monday 22 February, 6pm
Zoom

1. What are the officers up to?

Development meetings for officers.

Officer Responsible: President

Submitted by: Nate Pidcock

Details:

Officers should be held accountable for the work they are doing whilst in office. I suggest we create Student Development style meetings where officers would have a discussion with a small group of students about their current priorities and projects. These would be facilitated by the Union Chairperson and to recruit students for the panel, we would use a Jury style system. I think these meetings would help ensure officers are working to the best of their ability and have the opportunity to gain meaningful feedback from students.

2. 5 Officers?

How many officers do we need?

Officer Responsible: President

Submitted by: Nate Pidcock

Details:

I think we should ensure that next academic year AberSU reviews the roles and responsibilities of our Full-Time Officers. I have spoken to other Unions with similar student populations to ours (of roughly 8000) and most have fewer officers but still comfortably manage to share the workload between them. Considering the current changes to university experiences and priorities I think now is a really important time to reevaluate the team to ensure we continue to support all students in the best way we can. Doing this research will also help us decide if officer wages are the most impactful way for AberSU to spend its money whilst ensuring then Union delivers on its promises to students.
