Step-by-Step: Using Zoom for Housing Fair

Step one: Make sure you've downloaded Zoom to either your computer or mobile. Make sure to also create a free account beforehand to make the sign in process quicker for you on the day.

Step two: You will be brought into the main meeting room when you first sign in. From here, you will have an option on your screen called 'Breakout Rooms', where each room will be titled with the name of the company running that particular breakout room. Simply choose which room you want to visit, and you will be taken to that room. You can also interchange between rooms, no matter the room you are in at the time.
